### **PRESS RELEASE**

March 17, 2014

The Morgantown Fire Department recently was awarded a grant through Factory Mutual for the purchase of iPads for use in their fire prevention program.

Chief Mark Caravasos stated, "This award is well-timed and will greatly enhance our upcoming preplan program that kicks off this spring. We thank Factory Mutual for this award and we guarantee this will help us in keeping Morgantown a safe community."

The iPads will be used by fire department engine companies to record preplanning information and will be used in the department's risk-management program. They will also be utilized by incident commanders on scene of emergency incidents.
